

Hypothesis

The shorter
The longer
the wings
the quicker
the slower
it hits the ground.
it spins.

Templates

Instructions

Use the coloured
create a
hypothesis of

cards to
what

you think will happen (or write your own!).

- Use the templates (or draw your own) to create your gyrocopter.
- Cut out letters C and D.

Mr Naylor Makes

Extension: Try altering the shape of the wing to see if that affects the speed the gyrocopter falls or the rate in which it spins!
