

Thrive activities useful for parents of children up to 16 years old – week eight

We can think of giving our adolescents a rich diet of social and emotional support and that diet needs to contain the right ingredients, Dr Dan Siegel recommends all adolescents have a balance of what he describes as ESSENCE to create the right recipe for healthy social and emotional growth. Each week we will continue to have a focus on the elements of ESSENCE, as well as an element of Emotional Health and wellbeing, to be able to describe how we think, feel and relate to ourselves and others and how we interpret the world around us.

Monday	<p>Emotional Health and wellbeing - connect in with our internal thoughts and feelings.</p> <p>Create a playlist of the highs and lows of lockdown.</p>
