

Our Values in Action

EYFS

Resilience

These children wanted to play differently with the pirate ship and treasure. They managed to find a way to play. Some of them didn't get what they wanted but they learned about give and take, sharing and friendship.

Innovation

These children are enjoying using their imagination and being creative. Look at us working independently to develop our cutting and sticking skills. E made a castle with windows and a door.

Critical Thinking

These children found out that glue sticks don't stick sequins and material as good as sticky tape. The sequins dropped off with glue stick they stayed on with tape. Problem solving in action!

Communication

Pirates have to talk to one another and listen to one another. They found that by doing this effectively they could find (and hide)the treasure!

Curiosity

These children made a snowman .They left it overnight and the next morning it had gone. We learned about freezing and melting from first-hand experience.

Positivity

Our children are happy and confident when learning new things. They enjoy coming to school. Can you tell? Look at this smile.
